

# A SHOP CIRCLE CUTTER

By Tom Arnold

From an old March 1995 issue of Scale Staffer, Tom Arnold,  
Editor

Scotty Hall displayed hhis nifty (and cheap) circle cutter at a meeting and it's the height of simplicity. The bow compass is \$1.79 (1995 price) at a drug store and the chuck end of the old exacto knife is screwed in and held by friction in the soft metal of the working leg. A number 11 blade completes it.
