I've tried to get all the major articles, all the three views, and all the plans. However, this is a work in progress and I find that sometimes I miss things, or I may be inconsistent about what makes the cut and what doesn't. If you found it somewhere else, you may find a more up to date version of this document in the Exotic and Special Interest/ Free Flight section in RCGroups.com. <http://www.rcgroups.com/forums/showthread.php?t=1877075> Send corrections to lincolnr "at" rcn "dot" com. Also, if you contributed something, and I've got you listed as "anonymous", please let me know and I'll add your name. Loans or scans of the missing issues would be very much appreciated, although not strictly necessary. Before issue 71, I only have pdf files. Many thanks to Jim Zolbe for a number of scans and index entries. His contributions are shaded pale blue. In some cases, there are duplications that I've kept due to more information or what I think is a better entry

87	Sep-82	Living in the Early Days of Aviation	Adrian Comper	na	article	Swift sales, the crash of '29, and an amazing trip to Australia
87	Sep-82	Handley Page W8.F Transport	Dave Stott	na	article	accompanies model plan
87	Sep-82	Handley Page W8.F Transport	Dave Stott	29.5	scale plan	model has 3 motors, 2 wings, and too many struts and wires
87	Sep-82	Handley Page W8.F Transport	illegible	na	three view	a bit sparse and not the best printing, about 1/3 of a page, with specs
88	Nov-82	Old Time Flying Horde	uncredited, but looks like Bob Rogers' work	na	cover illustration	Captain Downthrust is trying to launch a peanut biplane, but the air is full of much larger old time models, and he looks worried.
88	Nov-82	Flying Aces Decal	Joe Fitzgibbon	na	sticker	decal that says "FLYING ACES Club" I wonder if it would still work after 26 years?
88	Nov-82	Living in the Early Days of Aviation	Adrian Comper	na	article	Discussion of the Comper Streak. (IMHO, this one should have been modeled years ago, but I've never seen a plan for it.) Also the Kite and the Mouse.
88	Nov-82	Ingenuity?	GHQ?	na	humor	nothing ever tears on the perforation (chances are, you've heard this joke in some form or other)
88	Nov-82	Avoiding the Weak Rock Design - The Glue Guru Mumbles on: Alas, He Can't be Silenced	Glue Guru	na	article	Avoiding overweight models in Jumbo. How to evaluate designs. Disses a Monocoupe from an early Model Builder magazine.
88	Nov-82	Hangar Number One Nearly Blows Away at Fall Meet	GHQ??	na	contest report	detailed, three page contest report of a windy day at Durham, CT
88	Nov-82	Philip Flange War-Sky Mystery	Jerry Bockius	na	pulp fiction	There's a nice illustration, and one paragraph, but I can't find the rest of it.
88	Nov-82	Kanone List as of Nov. 1, 1982	GHQ	na	kanone list	
88	Nov-82	Handley Page Addendum	anonymous	na	article	some detail drawings and mods to the model design perviously published in FACN
88	Nov-82	Sikorsky UN-4 Monoplane	T.H./Sikorsky Mfg.	na	three view	entire page, reasonably detailed but no section (see previous page, though, for airfoil) fair printing quality. This is a different wing for a Jenny aka JN-4 fuselage)
88	Nov-82	Brewster Buccaneer	Dave Diels	18	rubber scale plan	
89	Jan-83	Forked Tail Devil	Tom Sandor	na	cover illustration	Drawing of P-38 from above and behind. GHQ called it "forked tail devil" in the News on the Wing column

issue no.	date, usually first of two	model name/article title/etc.	author/designer	span in.	type	comment
89	Jan-83	Sikorsky GS-1 Airfoil	Len Wieczorek	na	notes, illustration	includes plot on a grid, which would make it easier to hand plot, plus NACA style coordintes. (Sometimes, this style needs a bit of massaging for computer use.)
89	Jan-83	Fuselage Structure - Mumbo Jumbo #3	Glue Guru	na	article	2 pages More, thinner stringers buckle more easily than fewer, thicker stringers.Use thicker, lighter wood. Angle sections for longerons. Boxy fuselages.(This stuff matches what my engineering pros used to tell me.) Plus a page of attempted humor.
89	Jan-83	Living in the Early Days of Aviation	Adrian Comper	na	article	Auspicious eginings of the Comper Mouse, with dark foreshadowing. (At least on the business side.) Beware of white heather on the instrument panel.
89	Jan-83	Comper Mouse	Flight magazine	na	three view	Full page. Detailed, including hinnts of structure, which make it look like a Rees style wing.Alas, no sections.
89	Jan-83	The Westland Whoopee	Frank Scott, Jerry Bockius	na	humor, farce	Three+ pages of it. Capt. Debris absconds with the new prototype and installs a tap for gin and vermouth.
89	Jan-83	Bernard V-4	L ?? Kavelaars	na	three view	Just under half a page. Fairly detailed for the size. Includes sketchy outlines for HV-120, which appears to be a floatplane version with longer wing..
89	Jan-83	Florida Contest Report	Lt. Duncan McBride	na	article, humor, fiction	I don't know if this means McBride won the mass launch or if it's purely a tale of WWI.
89	Jan-83	Flying Aces Brainbuster	GHQ	na	quiz	I think a later issue reported that there were no replies to this challenge. Remember that this is before web sites.
89	Jan-83	Cessna AW Peanut	Mark Fineman	na	notes	notes on the aircraft and the model design
89	Jan-83	Cessna AW Peanut	Flying Enterprise Publications	na	three view	about 1/3 page, with lots of fuselage sections. Reasonably detailed but shrunk enough that text is hard to read.From <i>Cessna Guidebook</i> , by Mayborn and Pickett
89	Jan-83	Cessna AW Peanut	Mark Fineman	13	peanut scale plan	skinny wing for a peanut, skinny fuselage
89	Jan-83	Hey Fellas, Build this Six Minute No-cal	DAS	na	article	Discussion and instructions for the accompanying Luscombe Phantom no-cal plan
89	Jan-83	Luscombe Phantom	DAS	16	no-cal plan	winding might be annoying with those wing struts in the way
90	Mar-83	B-29's Over Tokyo, with a Raden	Pres Bruning	na	cover illustration	drawing

92	Jul-83	Air Mail	Frank Anderson	na	letter	adulation for FAC, with questions. For instance, the identity of Hung.
92	Jul-83	GHQ's Answer to Frank Anderson	GHQ	na	article	GHQ answers a few questions and begins a list of members with 24 of them, most now illustrious.
92	Jul-83	Byte Size - Mumbo Jumbo #6	Glue Guru aka Leon Bennett	na	article, software	GG discusses jumbo scale considerations as they relate to size and reveals a certain romanticism about large models. The Glue Guress chimes in with a jumbo performance prediction program for the VIC-20. I think it might be written in BASIC, but I won't swear to that. The program is so short that it wouldn't be a big problem to type it in.
92	Jul-83	Living in the Early Days of Aviation	Col (Hon) Adrian Comper	na	article	Comper is forced out of Comper Aircraft. Discussion of why the company flew at first but not later.
92	Jul-83	Where are They Now - Vignettes.....	W. Summersuit Vaughn	na	humor (or at least the attempt)	Vignettes of What Happened to those Famous Modelers of the 1930's Birdie Stule, the Inverse Time Duration Rule, and undue influence.
92	Jul-83	The Hawker Humpback	anonymous	na	short article, three view	Obstinate looking British Biplane, designed by someone with a close friend in Akron. Pretty sure it's imaginary.
92	Jul-83	Model Aircraft Weathering	Mike Midkiff	na	article	Midkiff ignores the obvious expedient of leaving your model out in the rain, goes on to discuss more laborious ways of weathering your model. Also when it's not worth the trouble.
92	Jul-83	Nikitin-Schevenko IS-4 Peanut	Mark Fineman	na	article	discusses the aircraft and the model plan that appears in this issue. Also how to build it.
92	Jul-83	Nikitin-Schevenko IS-4 Peanut	Mark Fineman	13	peanut scale plan	The full scale aircraft had a lower wing that folded into the upper. The plan has it folded. Fineman claims this one's a kanone collector. This plan's predecessor, an 18 inch IS-4, appeared in Nov. 1981 Model Airplane News
93	Nov-83	Joy's Racer	anonymous	na	cover illustration	drawing of Joy's Racer from the Smiling Jack comics flying by. In the background are Fat Stuff and that bald chicken that always eats his shirt buttons. (If I saw a character named Fat Stuff in a newspaper comic these days, I might get a little judgemental. )
93	Nov-83	Living in the Early Days of Aviation	Col (Hon) Adrian Comper	na	article	Mr. Butler flies a Comper Swift from England to Australia. Also, the Swift proves to be an economical flier.

93	Nov-83	With the Others at Chicopee - Mumbo Jumbo #7	Glue Guru, aka Leon Bennett	na	farce, fiction	GG goes to the AMA Nats but, despite heroic reconstruction, can't seem to save the day, even with a 93 second flight on a jumbo. With many pokes at the Others. (This gets old, I'm one myself. I wish GG was right about us being rich beyond the dreams of avarice. I was at the Chicopee Nats a year or two latter, and, as I recall, the indoor ff at least was quite impressive. Plus you could walk to a bunch of different events. CL, ff, rc pattern.....
93	Nov-83	A Pair of Puzzlers from the Dark Dim Past	anonymous	na	article, plus fiction	I suspect author was Stott, Thompson, or Reichel. But what do I know? Comments about the two plans that appear in this issue, along with some amusing lies. I suspect this means that the Carrier Pigeon plan is a pseudo. Possibly the first pseudo.
93	Nov-83	Curtiss Airmail Biplane, aka Curtiss Carrier Pigeon	Henry? Ruskin, Stan illegible	16	pseudo dime scale plan	The article is a bit ambiguous about this one, but I think it's a VERY convincing hoax or, more charitably, a pseudo. Stew Meyers thinks so. Scale Flight Model Company used to make a kit which was sold through Penn Valley Hobby, who only sell on eBay now. Currently (1/27/2018) listed only on their old site, and not on ebay. BTW, the Curtiss Carrier Pigeon was a real airplane, if ugly. I've seen pictures and my eyes still hurt.
93	Nov-83	Joy's Racer	anonymous	13?	fiction flyer plan	I think this one's a hoax, too, i.e. not from 1940 as claimed by the "copyright". But a swoopy one. Includes some cartoon "documentation".
93	Nov-83	Hangar Number One Summer Meet	Bob Thompson	na	article	Two and a half pages of play by play about the windy Summer Meet.
94	Nov-83	Two FAC Maniacs with Jumbo Models in the Snow	Bob Rogers	na	cover illustration	Shaded drawing with a gigantic Bell XFM-1A and a really large Grumman Skyrocket. Oh yeah, there are two guys in there too.
94	Nov-83	Bell XFM-1	anonymous	na	three view	a bit more than a quarter of a page, fairly basic, goes with cover illustration
94	Nov-83	Jesse Davidson	anonymous	na	obituary	A former editor of Flying Aces magazine and all around modeler.

Ode to Don DeLoach  Wings are more efficient if elliptical But that isn't especially practical From a structural point of view. Tapered wings built well won't fracture And are easier to manufacture. Elliptical wings we thus eschew.  Unless we're building for Flying Aces A scale design that by rules places the design in WWII. Spitfires, Heinkels then are practical, Notwithstanding wings elliptical And might beat your F-4U

289	May-16	The Adventures of Jimmie Allen and the Jimmie Allen Models - The Unknown Jimmie Allen Scale Models	David Mills	na	long article	From <i>Free Flight Quarterly</i> October 2015. Long discussion of 9 not very scale Jimmie Allen models of 12 inch span. If you don't like the mostly tiny copies of the plans in the articles, they can be found as tif files at <a href="http://dcmmaxecuter.org/plans.shtml">http://dcmmaxecuter.org/plans.shtml</a> as of 1/13/18 The SPAD and the Polish Fighter, aka PZL P.6 are also shown full size in this newsletter, and the D-VIII at 44 percent. At least the tiny Hell Diver plan is distorted, as the radial engine isn't round! Possibly some of the others are distorted as well.
289	May-16	Fokker D-VIII	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	Not very scale. Shown reduced to 44 percent. see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a full scale tif file possibly dime scale?
289	May-16	Curtiss Hell Diver	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	Tiny picture of the plan is distorted. If you corrected the aspect ratio, you might be able to build from an enlargement of it. see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a full scale tif file The undistorted plan has more area and is less short-coupled.
289	May-16	Curtiss Sparrow Hawk	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	Fin and stab not very scale. Tiny picture of plan but may be buildable if enlarged and aspect ratio corrected. Light construction. see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a full scale tif file
289	May-16	Sopwith Camel	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	More like cartoon scale. Especially the horizontal stab. Lightly built. see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a full scale tif file
289	May-16	Polish Fighter	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	David Mills' article says it is a PZL P.6 He also says it's fairly scale except for the horizontal stab. see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a full scale tif file (Seems like model has lower aspect ratio than what I've seen in 3 views - LR)
289	May-16	SPAD	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	Per David Mills article, is fairly scale. There's a small image of the plan on page 7, but a full sized one elsewhere in the newsletter. May represent the S.XIII see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a tif file.
289	May-16	SE5A	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	Scale is way off, but should be good flyer. Only tiny image here, though possibly you could build from it if enlarged. see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a full scale tif file
289	May-16	Fokker Triplane	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	Not very scale. Tiny picture of plan here may be buildable if enlarged, but see <a href="http://dcmmaxecuter.org/plans">http://dcmmaxecuter.org/plans</a> for a full scale tif file

289	May-16	Boeing P-12E	Ideal Aeroplane	12	peanut scale plan, Jimmie Allen plan	Per David Mills article, may be closer to an F4B, but those airplanes were very similar. Tiny image of plan is distorted here, though if enlarged and aspect ratio corrected, might be buildable. see <a href="http://dcmaxecuter.org/plans">http://dcmaxecuter.org/plans</a> for an undistorted tif file.

G-ACME registration has no known connection to Wile E. Coyote. Note that the Pobjoy engine is geared, so prop shaft should be off center as shown. Compared to the photos and three view, it's not off center enough. However, it's only a dime scale, and further off center might be inconvenient.

296	Jul-17	Blue Ridge Special	Blue Ridge Models	14	free flight sport plan	simple beginner's stick model with diagonal ribs, includes original instructions, which were fairly extensive, and redrawn ribs by Stew Meyers
296	Jul-17	Megow Spad	Fred W. Megow	12	dime scale plan	NOT very scale, but it's an original dime scale from 1934. Shows a Lewis gun, which Stew Meyers thinks is probably incorrect. Also shows a radial or rotary engine, which is definitely wrong! Printed about half size
296	Jul-17	Megow Nieuport Baby Scout	Megow	14?	dime scale plan	An original dime scale, though the word scale is used loosely here! Printed smaller than half size.
296	Jul-17	Lockheed Altair	Rich Weber aka Wingnut Aero Works Ltd	16	pseudo aka neo dime scale plan	see notes on page 23 by someone, which include a couple of pictures of Altairs (or maybe a Sirius??)
296	Jul-17	F6F Hellcat	Rich Weber aka Wingnut Aero Works Ltd	16	dime scale plan	Rich blew the budget with formers on the bottom. Good for a dime scale, not meant for serious scale competition
296	Jul-17	Meyers Majorly Morphed Megow Baby Scout	Stew Meyers, Megow	14	neo dime scale plan	modified from the Megow kit of same I think it's supposed to be a Nieuport 11

298	Nov-17	Bristol Scout	Lee Hobbies	13	peanut scale plan	printed at more like 12.5 inches. I think this is from the series that came in plastic bags with a card label stapled to the top
298	Nov-17	Bristol Scout Assembly Instructions	anonymous	na	instructions	I don't know who wrote these, but it's not Lee Hobbies. Or maybe Lee Hobbies wrote the first part. Includes a couple of photos.
298	Nov-17	Behavior of Rubber Motors, Part II	Frank Rowsome	na	article	Test data and a bit of science, or maybe I should say engineering.
298	Nov-17	Curtiss Airmail Biplane	Henry? Ruskin, Stan illegible	16	dime scale plan, or maybe pseudo	aka Curtiss Carrier Pigeon This is so ugly it's cute. Stew Meyers, the newsletter editor, writes that it's a hoax by Dave Stott, but if so, Mr. Stott should have been a counterfeiter. It's very convincing as a Comet dime scale plan. Penn Valley has or had a kit. I got the names from a slightly cleaner print of this that showed up in issue 93
298	Nov-17	Boeing Monomail	Rich Weber	16	pseudo dime scale plan	Looks like it should be a good flyer with that skinny fuselage and broad wing.
298	Nov-17	Baxter Super War Plane	Mark Fineman	22	fiction flyer plan	looks like it should be a good flyer, and only a little implausible as an aircraft

298	Nov-17	Half Gollywock	Stew Meyers	15	half size duration model	apparently it's legal for a special event. Original design of Gollywock by Wally Simmers in 1940.
298	Nov-17	Build a Hi-Start Pole	Stew Meyers	na	article	tells how Stew built his hi start pole and names the required hardware. Presumably this is for the hi start scale glider event
298	Nov-17	Lees Hobbies Kits	Lees Hobbies?	na	list	page 25 Just a list of the Lees Hobbies kits, which I think were mostly WWI peanuts, though the Dornier D.1 (aka Zeppelin D.1) was never used operationally
298	Nov-17	Musing with a Friend	Vance Gilbert	na	article	Vance corresponds with Rich Weber about whether to build warplanes and if so, whose. Is any military really innocent?. Vs. the charisma of certain designs, such as the Yokosuka E14Y1, which actually bombed Oregon! (not much damage, though)
298	Nov-17	Yokosuka E14Y1	anonymous	na	three view	tiny, goes with Vance's article, was carried by submarines!
298	Nov-17	Inverted Flight Point Factoring	Pinkham Field Irregulars	na	article	Not inverted flight, inverted factoring! An optional way to do flight points so that hi wingers or other simple airplanes can compete against the bonus point jobs. My own opinion is that a B-58 with 4 props that can fly much at all will still be very tough to beat. ;-)

299	Jan-18	DH-4 Mail Plane	Stew Meyers	16.4		may be printed a little over 16.4. "Cloned" from Comet DH-4 kit 3305 plan and shrunk from 21.6 inches or so. Actually modified somewhat. For instance, the trailing edge is much narrower. Could be shrunk to a dime scale, but is larger to qualify as simplified scale.
299	Jan-18	DH-4B Mail Plane	Stew Meyers	na	note	Note about the airplane and Stew's model design. Small pictures of the actual aircraft and the Comet kit box. Goes with the plan in this issue.

299	Jan-18	Blackburn Beverly	anonymous	na	three view	small and simple, goes with Vance's Muse column
299	Jan-18	Hey Modeling Musing Musketeers	Vance Gilbert	na	article	Does he mean musketeers or mouseketeers? ;-) Includes picture of a peanut "Glen" as discussed in previous column. (Yokosuka something or other). Also a photo of the full scale Blackburn Beverly. (This might be a great candidate for compressed air. I'm sure a 2 or 3 liter bottle could fit in that fuselage.) Vance discusses his mega Blackburn Beverly project. A couple of Rick Pendzick's early aviation experiences, including a homemade, dung flinging hovercraft and witnessing a real airplane crash. Reading old magazines that are exuding little flakes of paper. How much longer those old magazines took to read.
299	Jan-18	Plastic Propeller Selection Guidelines for Rubber Powered Novice Scale Flyers	Sam Brauer	na	article	extensive discussion and advice, including some reviews of particular props Also, cutting back larger props to get higher P/D ratio.
