

PRINTING THE PINKHAM FIELD HANDBOOK

This version of the handbook is formatted so that when you print the contents on both sides of two sheets of letter-sized paper and fold those sheets together, the result will be a handbook with the pages in the correct order.

1. Download the file and open it. Select "Print".
2. When the print dialog box opens, make sure of the following:
 - A. Orientation: The page should be set to "landscape" orientation
 - B. Pages to print:
 - 1) Begin by printing pages 1 and 3.
 - 2) Take the printed pages 1 and 3 and flip them over longways end over end without changing their order; reload them into the printer.
 - 3) Print pages 2 and 4.

If you have done it correctly, you should now be able to fold the pages together to make your own copy of ***The FAC Official Edition of the Pinkham Field Flyer's Handbook!***
